INTERNATIONALIZATION

Open and reliant on international cooperation, for each cycle of study the Department of Engineering for Innovation (DEfi) offers international students high quality education and rewarding exchange opportunities for study, research and traineeships.

International students will find a young, dynamic and challenging environment. With its constantly updating base of more than 40 Erasmus and International Agreements for students' exchanges DEfi is not only a springboard to and from Europe, but also a booster for a better and faster career, with comprehensive offering of Degree Programs in English and Italian.

- B. Sc in Biomedical engineering
- B. Sc. in Civil engineering
- B. Sc. in Industrial engineering
- B. Sc. in Information engineering
- M. Sc. in Aerospace engineering 
- M. Sc. in Civil engineering
- M. Sc. in Communication Engineering and Electronic Technologies 
- M. Sc. in Computer Engineering 
- M. Sc. in Management Engineering 
- M. Sc. in Materials Engineering and Nanotechnology 
- M. Sc. in Mechanical Engineering

PHD AND RESEARCH

The Department of Engineering has two PHD Programs open to International Students.

- Engineering of Complex Systems
- Materials and Structural Engineering and Nanotechnology

DEfi welcomes scholars and faculties from all over the world to collaborate within labs research activities and international research projects awarded to our faculties.

ADMISSION AND SUPPORT

Applications are accepted several times a year, usually in summer, fall and spring. Admission is subject to grade and language thresholds, academic curriculum consistency and online colloquia. Scholarships, waivers and discounts are available. Assistance is provided to exchange students and visiting scholars as well. Accommodation options in Campus and in Town.

LIFE AT DEFI

DEfi is located into two Campuses. The main one being in Lecce, a historic city of about 95,000 inhabitants and the other in Brindisi, an industrial city of about 90.000 inhabitants where the landing airport to the region is located. Both situated in Salento, the peninsular part of Apulia brushed by the Adriatic and the Ionian Seas and gifted with unique natural sceneries, monuments architectural styles.

With a vibrant and authentic lifestyle, University students and scholars can enjoy of qualitative education, research opportunities and a vibrant cultural environment at affordable costs, with housing, entertainment and shopping opportunities for every budget, convenient transportations as well as an inclusive, diffused and inexpensive healthcare system.
